VMR Capital is a diversified financial services company specialised in providing structured solutions for a broad range of property finance and investments including;

- Development finance
- Commercial buildings
- Industrial buildings
- Retail buildings
- Residential housing
- Strata Units

VMR Capital operates as one of three core business units within the VMR Group which comprises;

- VMR International – Development and Construction Management
- VMR Project Marketing – Project Marketing and Sales
- VMR Capital - Property Finance and Investment

VMR Capital works closely with the other business units VMR as Development and property specialists, ensuring the successful delivery of projects throughout all sectors, to optimise the prospects of capital growth and returns.

The company manages investments from qualified wholesale investors, which are secured with structured finance agreements for investment in the groups development projects on a selectitve basis. The return on funds invested ranges depentant on project returns and risk exposure, however the overall aim is to produce above average rates of return on funds employed.

VMR has delivered over \$300 million worth of development projects to date and through VMR Capital continues to provide structured finance through our funding partners for, residential property, property development and commercial property investment.

VMR Capital's aim is to increase the net financial worth of our clients, investors and stakeholders through the delivery of progressive solutions to their investment needs in the property sector.

The company engages in best practice principles, including adopting the MFAA Code of Practice and the Code of Banking Practice.
